(54) Title: AMINE SALT OF CARBOSTYRIL DERIVATIVE

(1)

(57) Abstract: The invention provides an amine salt of a carbostyryl derivative formed from a carbostyryl derivative represented by the formula (1) [wherein R is a halogen atom; the substituted position of the side chain is 3- or 4-position in the carbostyryl skeleton; and the bonding between 3- and 4-positions of the carbostyryl skeleton is a single bond or a double bond] and an amine; and the invention is useful as drugs for treating various diseases, especially as aqueous formulations

due to the superior water solubility and the superior pharmacologic effects.
